Very interesting read, thank you for posting!!
I agree in some sense's yet if you read my post on the 13 dimensions an
see where i found them and why i say they are as they are
you are right scientist do stop at matter
that as far as i can see is the 6th dimension, yet when i died i saw there
then later through God showing me the rest i begun to understand the re
The universe is created, when i died i saw that the whole universe is ma
spirit and all that does exist
dense quarks with out much vibration are hell/valley (was the original wo
High level quarks have transcended the other dimension and matter and a
it took me a while to make sense of it, from what i had seen when i died
The 8th dimension is infinity and cylindrical as you say
yet the 9th is chaos as it is out side of a time frame and isn't created ye
so the universe is in a continues state of unfolding and being created
the reason i say it is created, is there is to much that is unexplainable
i.e. most things function correctly at a sub atomic level
if it hadn't been created even after millions of years, i doubt we would b
this is hydrogen
as all would be ever changing
also there is many things that function in symbiosis as if made to functio
even with evolution and things learning to adapt this wouldn't happen as
only reason it is hard to see is we are making a mess of it
also many creatures have missing links within the evolution theory. No a
Also if all is quarks, in the beginning as many beliefs say, there was not
all was chaos, you could say it was matter and anti matter mixing with o
then from with in this something caught a part of existence, i.e. God
from there he wished to see what he/it was so he made a reflection of hi
why the bible says us, in genesis.
the reflections where wisdom and and the beginning of all
isn't genesis easier to follow then this? lol
then from there, structure for how quarks would interact was created
this has unfolded into how we now see things
this is from something i was shown and also how our brains and babies a
another to make its self
if the smallest things in the universe work on similar principles, so do th
many of the ways of God from what we live in.
this is true Zen as i see
as most Zen koans are taken from nature and something has extreme inte
What do you think?
