Summary: With many debating over which religious contract is right, we w
opportunity to relate how Satan is a contract.

Now Satan from its root meaning means accuser of the soul; now if we ta
each of these are in fact contracts of any given description.
This is where many of our current debates, take place at the end result a
question.
So let's do that:
In any question these are always unlimited effects of any given action in
Now we have limited our self's, to not be able to help someone; as they c
be it religious, political or any other way, in which a contract may be put
Now since many of us have taken on religious dogmatic contracts where w
until we brainwash our self; many may not see this as easy as others.
As some may defend with in them self their own contractual agreement w
we stop living in the now and adapting to our situations is the moment w
So if we let these contracts go and instead just make one contract that i

Then we can begin to see the now, and getting our head out of religious
most of our society that requires us to question given contracts in place,

So when some one asks you any of these contracts ask why they do, and

A few as guidance are these:
'You must say Christ died for you and you are washed of your sins.'
'You must say that Mohammed is blessed and a true prophet.'
'Moses gave us the law and so the law stands.'
'You must swear allegiance to any religion as separate to be in our club.
'You must swear allegiance to the monarchy.'
'You must follow these rules in politics.'
'You must follow these rules in sciences.'
'You must follow these laws and rules and regulations that are impossibl
with, yet we trust you will understand them?'
'You can not have sex until you are married.'
'You can not marry who you want yet who we say.'
'You must have this, that and be as we say.'
'All life (meat) is edible as that is what is meant for.'
'Drinking alcohol is OK.'
'Cannabis is a drug.'

So in that entire list we cold continue and can easily show where they co
Yet in each they are so clearly Anti-Christ as how can anyone live?
When we try so much to die and make everything old principles that no l
Now this is the result of Satan it is self and for once we are not referrin
every atom the dense part of its self on sub atomic level.
So when you get a voice saying this doesn't know what it is on about, the
of being Satan.
As all we do is write what is good, and this makes clear sense to many.
The problem stems that within the dogmatic behaviours and contracts set
not our self's, they have over shadowed light its self within our life's.
As we see countless people in fear and suffering due to these ridiculous
last one is devised by Satan according to our texts as examples.
For as King David whose advisors suggested, counting the numbers of pe

happen from doing this, as we see.
So why our lives would be controlled by a number?
Each of us has a number to trade with; without this try living in most wes
cultures?
So before we accuse each other as we so often see, why not recognize th
pointing back; if you point - So don't judge!
So how can we judge and make a contract and say this is right and this i
Where do people get scammed in most industries?
Contracts and there it says enough as how can ego rule our states?
Easy!
We have let it through trying to close down every last missing contract, w
There are always more, where they come from!
As good doesn't add complexities without explaining them simply to begin
circle of life us life; in that is dying due to contracts we made.
So as such politics is a waste of time, as where it is given to make a con
over time.
For example again we can give Moses error and why so many stood again
histories world wide.
Because Good of Moses didn't say write the laws his father in law did, is
lived in the now, well he did to begin and was administering justice betw
then it all went wrong and was recorded as laws.
Now we have so many laws that no one follows any as they can't keep up
this article relates.
As how can we when we taught to be judgemental and accusative of other
having nothing to do with life in the now and since God is life and the no
follow contractual agreements.
So to begin freeing our self's this doesn't start in blaming politics yet wi
Remove that so called ego that is not you, and clutters the mind daily, w
and so allowing yourself to be used for bad, why as you say your good is
So instead learn to live in the now if matter needs fixing it need fix then
busy making laws for when this or that happens it really is a waste of tim

So be at one with all in good, and then that abides in your every atom, a

So why would we need to make separate records if heaven is its own judg

As if you are here you are judgmental which is the definition we have giv
clear from Solomon's writings, of speaking of bad and sinner (in the sam

So we give the fact that judgmental-ness is a sinner as called, and so a
didn't know God.
So make it your last time to judge someone by a book that was written th
say this contract says.
As in each of us we have inherent beauty and love that can be shared, ye

Yet when we see that above every atom its self the light that holds the f

So between us we can build a new world, not by saying we know as we ne
If you do think you know then you also know Satan within your self, as o
we see if we are perfect in life and try at all costs to help oneness over
judgemental-ness.
