who would want too ascend into heaven and miss out on all the fun every
mess with nature much more...we are a good surfer

Then guess all would be back to Politics and Spirituality as one regardle
government building, if they all get washed away...

So on the one hand, while they implement our own destruction....

Due to this politics can be paid off more to hurt the one friend it is said

Being the 5th commandment, which many fail to notice look after your fat

We love everyone, just feel that peoples are a law unto them self's....yet

As if a law unto them self is issued by said persons heart, then the hear

yet when we have a broken chalice, to begin with being that of the broke

We need an understanding between us of a council of Zion...again as we

some of us are stronger and don't keep coming back again...not that reli

we are repeating what we all should have known and wanted as children.

So lets try our hardest to make it a place all children will grow up as on

As in politics it will also hold us back as it says this country makes more

maybe with more women before hand this wouldn't have happened...yet m

yet it caught me when I watched a mother teaching the child German....

Very strange...or is it or is it all politics and greed to begin...let separa
state?

Why would anyone want to make it that the family separated? Which are
brother and sister...so its mad when they divided us and call us different
and the only way for any of us to ever get ascended truly, is to come dow
with the peoples....

so if we can clear this gap that divided the separation of religion and po

one big problem in the past though we do see is the antics of tyranny as

Oneness is all is one....the moment we start making laws as Moses did u

yet none notice this and is carried on lets add another law if that one do

well it may be what they call an ism, yet Tao or Dao of the Tao Te Ching as true Buddhism can't be an ism!...it is a philosophy in state of mind an people will want to be in unity if the state lets them be in unity...

Do believe this had succeed and there was a vast unity taking place unti

Now when in the middle of all of this we have major thorn being the Vati wealth of private motives..let this be a centre in the world as it is and th what's happening..
Think then funny thing in me stating that we would like to be pope, is tha wants us to we would and do believe it may be meant..as when watching How on earth oh yes sorry it is earth not the ways of God...a pope is cho clearly not a group or community..must be mad...and why we got so mad The fly's need clearing out the building the love needs putting back in... Why don't churches get full they are boring..why the people choose it lik want a place to go out and communicate in alight heart fashion with othe happens to our community surrounding us..each and every last one of us these full of dead men's bones being the idea of Christ on a cross is so

So where and why do churches shut their doors..when these are the place communities were built on.. maybe if they weren't so full of gold from go place and selling poor peoples wealth for money?

What would any true man of God need money for? Take neither rooks nor lot..and this is not doing globally...we don't wish to get mad as the last news on boxing day and "honestly" don't want arrows to go flying from us me writing..lol

Point being this isn't some joke on our own behalf and never has...yet so smirk when they got in..we see what is there..do you see us? So as for e sit waiting and when more of said peoples, who claim to be help realize t might finally get started....
