From what I can guess, the photon belt is expected to pass over earth so as it hits the earths atmosphere.
To many as these things where written, they had no concept of atoms and said fire.
The Quarn does state atoms though.
This when it happens will mean that atomic structure, looses it's solidne with my limted scientific understanding.
Meaning that things can be reformed as they were, with slight improveme

Rev 11:18 And the nations were full of wrath, and Your wrath came, and the dead, and to give the reward to Your servants the prophets, and to th fearing Your name, to the small and the great, and **to destroy those destroying the earth**

Amen To one true God, and one lord
