Maybe it's my fault as should have been more clear....basically this is what Yeshua said....and we are just repeating....

As he said hate mother, brother and self....easy done if you live in hell and are here to help as workers; else makes no sense...under Christian ideology...

Also to make friends of Mammon being here and even if you don't make it, you can still come back here and have a home....

The point on the preacher on the top step and lower step as we mentioned....

That this isn't his kingdom...or even home...feel the same way, so understand...

Dark and light point, well if they believe they are good people and he said none are good....

Then it requires an ego to believe we are good and so fallen....

The point of looking back at the fields, as you die...and seeing there is still much work to do.....

All points he made it seems are concerned with this, and still more to add...
