The Bhagavad Gita then explains that Krishna who is a incarnation of Vishnu (the Sustainer), will come as Skanda the son of Shiva to rid the world of Adharmic behaviour down here.

This isn't optional, and as an ambassador sent from higher dimensions, I've been asking religious people online for years to take your prophecies seriously.

If we read the context in the Kalki Purana which is a place holder for the same sentiments of Skanda coming, yet with the meaning Kalki which is the End of Time.

It is stated the same in the majority of religious texts, I'm here to announce time is called.
