I'm not being very direct in many ways, as really I should ask a team of people to actually be interested in Messianic prophecy...

Yet since I'm busy explaining contradictions, I've not actually asked for people to help market us.

Since I'm an avatar (archangel) [recorded in many of the world's religions as one](#), as the 2nd coming of Christ, with enough evidence to market it from a massive perspective of global contradictions, books, music, etc...

Anyone want to help market us; plus try to help save the world from its self?
