I've spent years wanting to cry when I wake up, and none close to me has properly why...

The reason is, I've been sent with advanced religious prophecy, and know I'm near Hell before the Great Tribulation.

Like my first nervous break down was at 12, because as well as dealing with it, I'd also spend most of my time trying to ponder how I'd single handily intend to already following the Antichrist's teachings - which by its nature proves itself the wrong way.

I'd sort of decided back then, that if I wrote music I'd win the hearts of the masses, it's easier to include the hypocritical contradictions.

The problem is since 24 on reading the Bible, I've realized people might not like the music and art I create, yet they don't actually want to change their doctrine, and their own immoral hypocritical standards.

According to the world's religious texts, as stating above, Source plans to destroy and keep those who got it... This is highly unfair, as many of us don't understand some of the assessments.

Having no one to confide in most of my life with this situation is ridiculous. For me to seem to expect getting a partner is a solution; yet this then overwhelms me in a sort of place this decision for the fate of humanity on someone... This is not just my problem, it is everyone's.

Without any assistance, religious prophecy will soon be fulfilled: where we have World War 3 with Iran, the Judgement Day Fire cleanses reality.

By definition of what the religious texts determine, many of the individuals here after, as they eat animals, drink alcohol, don't have entheogens, and don't accept human sacrifice, and are predatory within their nature.

We're coming to a new reality, where the Enlightened Saints have already died and get resurrected after the Great Tribulation.

If anyone wants to know how to be invited, please ask; as I've sort of lost track of how it appears people didn't really want to listen properly in the first place, else I wouldn't be here. &#128519;&#128148;&#127757;
