This verse compares who is a strong Lord (Yah - H3050) like Yahavah:

Psalms 89:8 O LORD (Yahavah - H3068) God of hosts, who is a strong LORD
unto thee? or to thy faithfulness round about thee?

Which means there were other Lords in David's comprehension of theology
that YHVH is head of the Divine Council.

They've simplified the religion removing the Divine Council, as it was true
there are 24 Archangels who sit around the throne of God.

The Source (E1) manifests reality, and the Lords are the Divine Beings (E2)
with the reality.
