Hi David, Dude here - so you have seen that Nasa footage. thats remarkable trying for 15 yrs to get somebody to talk to me about Ufos, in churches; am wierd, and say, Heaven doesnt need ufos. and thats as far as they will have met who knows about that film. I have about 15 really good ufo video Nasa film footage (video) showing about 30 ufos parked just outside our from the american continent shoots at one of them with a blue beam. Could impluse that is laser driven. Anywho this beam is the speed of light, but travel the way as it came for it. Thats means that ufo is faster than the speed of light coming. Now how do ya see something coming like that, its as fast as the speed of light if computers are that fast. Anywho, when that ufo moved, all thirty ufos moved to different places, then stopped and hovered, just like they were before we saw them. My question is, if this is the pentagon doing that, and if these are Heaven sent to America, in relation with God? Do ya think Jesus takes it lightly when we do this? Could these be satanists, who have worked their way into technology that do this? Man, this is something else. How long will God stand by and let us do this. This is really a unique time to be living in. lol David, peace out to you too. I am a rainbow gathering.. you sound like a reformed peacenick..lol They used to be back in them days, I am 55 soz its been awhile.. later man. God love you.
