Summary: A Quick guide to some of the Amazing things within my life, th
faith in doing what God asked of us.

Many will ask who I am; what right do I have to go through the bible in th
The truth is I have asked my self the same question, again and again, si
old, yet one day I knew I would have to.
Then that's the bit that gets me, who thinks things like that at that age?
them things? Why would I feel, I was sent?
So what did I think, at that age?

That Yeshua had said it right; he had never at any time pointed to him se
wrong as people worshipped Yeshua.

Yeshua I knew as a brother and understood many of his feelings, memori
from in heaven and also his flash backs of his life.

I knew what heaven was like and how if felt, and what was required from
yet not in words, as I do now.

That there will be a great tribulation within my life time, then after that
unity.

I felt that I had been sent.

Yet as I said before I always question it and almost at times disbelieved
God would let me stop believing, what I came here with in my heart.

So why didn't I stand up earlier, I wasn't sure and especially being broug
doubt and capitalism.
Plus also the main reason is my auntie, as she believed that we should w

I knew many commandments inscribed on my heart, I respected my elders

we moved nearer to where she lived.
You see she is a very strong follower of the bible and has been led by th
many different denominations, trying to find the one which is true; she n

Having felt this way from that age, we have come to many discussions al
occasions not getting very far, without it coming to her getting mad at m
Yet through adversity we learn.

When I was 8, it was September 1986, I remember standing on a show gr
wandering, while my parents looked after our stand; I stood in an old me
running all over buying things and admiring the old castle.
I couldn't help wondering why? What was it all about? What is it all for?
As people seemed so distant from each other, yet I thought from what I h
would be working towards the same here.

When I was 15, it was a beautiful afternoon and I had gone off wandering
disused train line, near to where I live. There was a beautiful sun set ov
round at all the house and nature dotted in between, and thought how all

The voice replied "Build it and they will come"

It then continued as I walked along the train line along to my home, I wis

"When the time comes you will remember".
That was about it, for a 15 year old I didn't fancy reading all the religion
the lads, and so I was accepted.
Odd bits I do, yet there is still a big section that is missing, about after
people start to rebuild our communities.

Straight after, when I left where the voice had been talking, as I neared
force came not like the 1st in any way more, dangerous, dark and bad.
It tried from the inside of me, to get me to jump off the bridge head first
point in me being here, I might as well. Yet I rebuked it in the name of G

This alarmed me at 15years old, as I thought how I can mange something
such and became a villain, well sort of. Someone became my friend who l
Up until 19 years old, I read the Tao Te Ching and other eastern religion
effort of doing, what I have been asked to do. Yet not reading the bible a
off, by what I had been taught, by society of Yeshua.

At 19, I had almost lost my self in the whole normal way of English life,
Disbelieving all the stuff that had happened earlier as being my imaginat
right and it was probably the devil, stop!! What am I saying??
So at 19 I went off to live with my dad in Spain, this opened my eyes to
then the usual life, of a 9-5 and buying stuff for happiness.
Then after an annual drumming party that is held in Ibiza, we stayed at t
days.
There I met someone who my spirit recognized, we sat playing drums all
What had I been doing all this time, I had known many things since birth
had gone way of track.
It was then, that I asked for forgiveness from God and Yeshua, as he had
hard it could be.
That night I got bitten by over 120 mosquitoes (that we could count) they

After that, I still wasn't completely on track, yet each time I did anything
to make me aware, so I wouldn't do them again.
Also from that point, I noticed that when I asked for things, they would a

Once I did try and steal a bottle of water, as I hadn't any money and had
was so thirsty.
Yet I almost got caught and ended up chucking the water, so they stoppe
sat down and gave up and thought how could I be in such a mess, and ho
instead.
Then with out moving, while I was thinking this, I put my hand down to m
bottle of water.

Thing like that happen all the time to me and always have done, I would
keep coming and there is too many miracles to mention.

Now when I look back at my life, almost every single thing I have asked
brown eyed, dark hair, Gemini called Suzy, certain looks and everything
she did turn up as I asked, even though it wasn't what I needed
At the time. Yet this is what happens when we try and guide our own pat
rather then trying to choose.

In the year 1999, I was 21 and during a self induced trance state, I saw
book laid out in front of me with many seals on it, almost like locks, yet
were there to stop any from entering that are not true.
Yet with in me, I had all the keys with out trying to find the right one, th
not be opened by one person. So I asked that there be in front of me a s
channel the energy through some of the enlightened people I knew. Now
parties have a reason, either the full moon or half moon, yet this time th

After this experience I had a couple of weeks of weird things happening,
thinking, would be playing in the song in the bar, I was walking past.
I would meet people and have answers for questions they had in their lif
Finally I went back to my dad's boat as he had a book on ancient history
Something in my spirit told me to look in there; there were many of the s
things from between now and 20,000 years ago. I felt they had always be
blinded my self to much of them by being taught differently about life.
One point that still sticks clear in my mind, as it was discovered and sho
after, was that the statues on Easter island. They use to be used as ligh
the island in the pacific, i.e. Mu, Atlantis. They Use to contain what app
stone. Then a fire was stuck under, so it would reflect out to sea.
From looking at this book, I decided I need to go to this sacred mountain
asked my dad if he would take me as it was a nice day.
He refused and said he was busy, and then from no where a storm came a
mountain. We couldn't get back to land in the dingy, as the storm was to
try, the boat next to ours almost smashed into our boat, so we went back

My dad tried to pull the boat out of danger with a rope, yet each time he

In the end as my dad tried to pull it, the wind snapped back at him and h
badly.
So I asked, "let me try", he said "how can you, I am a strong man, you ar

So I just prayed asked the wind to stop and it stopped, I pulled the boat
it and just as I was about to tie it on my dad took over and the wind pick
up and we were safe.

Me and my brother went back to shore and then went back to the other si
our friends were. I still had in mind that I need to go to this mountain an
yet I didn't know why.
When we met our friend it was them who turned to me and with out me sa
group of us want to go to this mountain.
In the end only six out of the group of friends came along, when we got t
and we had to go along a dirt track to get to it. Many years before I had,
been a hawk that lives above it and knew where I was going from that.

We made a camp fire and sat round it and told stories of things we had s
was currently in a mess.
It was an amazing night, I have never seen so many shooting stars in on
where in perfect alignment with the mountain
I decided to go on a mission up the mountain at first to get wood, then la
the mountain.
I had gone with out my shoes, so I stuck to walking on the stones, so I d
half way up and then got stuck as the path was blocked by bushes.
While I was laying there trying to figure out a path up to the top, through
up looking for me.
One decided to come up to the top with me, I was busy pondering the way
my spirit saying about the white and the black path. I then realize that th
mainly on white stones and the way that hurt my feet was on the dark pat
path lead? I followed it up, and then I heard "wide is the path to adversi
life".
Then I noticed that the path went off down this narrow route through the
and found the path up to the top, all the way along were these white ston
light.
When we got to the top we lied down, I have never felt such peace as I d
felt contained, almost like being in your mother's womb.
I looked up at the stars and saw that my stars (Orion's belt), as they hav
right direction in my life, were directly above where I was looking and in
mountain.
Then I heard a voice saying "you must have one foot on the sea and one

I made my way down the mountain to its point, where the rock is above th
As I sat there I pondered all that my friend had been saying and all the h
their lives.
Then from all that I had read about God, all I had known in my spirit fron

could see and then some more, "when will we call time"?
At that point there was thunder from every direction, so it hit my ears at
never heard anything like it.
After I was almost questioned, if you had a son and loved him dearly, wo
good of man kind, I said I would, which made me cry at the thought of it.
As with this question I saw a glimpse of what infinity meant, and how his

I had with me a pocket copy of the Tao Te Ching and asked if we could u

I remember thinking how beautiful it was as poetry, yet after you underst

I then heard ask "if he has any tattoos?" I did and he had on one arm bo

I asked why he had them done, he told me he had, had a bad life and hov
killer in the military and that was there emblem.
This man I hadn't met at the time, yet he lived in the squat with many of
We came to quite a few conversations, when we got back to town.
He was trying to teach my friends that you could just steal to get by and
them to entertain people and ask for donations.
At one point he turned to me and said "there are many of us and only few
Yet I came back with white moves forwards and black back, meaning that
future and bad can only work through the past.
We shook hands on it, and straight after I caught my hand that I just sho
got a cut across my finger and for 2 days it would not stop bleeding.
I began to get worried and went to seek spiritual help, I went to a friend
gave me a stone and prayed. Immediately after leaving the shop where m

He left me and went home, I sat upstairs on my own in deep thought, yet
my heart slowing down.
It then just stopped, at first I found my self outside of my body, looking
I then in the form of spirit flew around all the places I had known and fa

It was strange as I went to the 1st tree of life in the woods, not that I ha

My spirit went into the tree of life, in front of it were 2 swords flashing l
to do with me, as they seemed to only guard against things that came wit
in peace and acceptance, So they let me go in through the tree of life.
As I went through the tree, I realized why I had come to the tree of life,
place of refuge, its roots spread deep under the earth. Then through the
connected to all trees and nature.
It was symbiotically connected to all of nature, it leaves spread high into
them was connected to the weather.
It was almost like this tree could feel what was going on and the tree of
work, yet we had lost touch and didn't realize, all is one!

Then as I went through the roots, I came to another place, at that point n
my eyes and times where I had not stuck in a 100% effort came back. I s
had happened to the person, as I had not made sure I did it right the 1st

I had thought, I had done to help, in fact had been my own desires.

They all stood next to each other, yet no one was listening to each other
to stand and blame.
My spirit couldn't take this place, it was horrible as it was so confining,
fact light when you looked closer, each spirit contained its own colour of
colours mixed together, appeared mucky brown.
Then as per usual in my life I began to talk about God and they tried to

As they covered me in them selves, something with my spirit called out,

Then from above me a great light came and pulled me up through many le

As I ascended through the levels they got smaller, almost like the shape

I floated past some one and as I did they were interested to meet me and
around each other. We almost became as one, we understood all the thou
spirit had, yet with out touching. Just floating around each other, in almo
making love, yet so pure and so clean, there was none of the feelings of
down in the lower levels, as I had experienced on earth.
Here everyone knew most things, the things they didn't know they sang p
in words like we do on earth, yet in simple sounds as children and anima
the same essences, yet different from each other. All the songs combined
the most beautiful music; I have heard and ever will.
As the waves of song, hit the center they come back with more emotion i
still in this almost musical expression coming in waves.
Then after floating around this other spirit, who was so bright I came pas
degree of time, I spent with the 1st, instead just passing by. Yet still wit

After leaving the first area of unconditional love, I came to a place that

As I looked around I saw that as I looked around the center circle, there
ways each of them acted and corresponded with the center.
Each seemed almost like a different colour or musical note as each had a
spirit.
This part of heaven was like the lens of an eye, as the different colours
the center.

It appeared to me that many of the books, I had read and emotions or fee
wrote them, were these same that I now looked at within heaven, there w
Buddha and many others.
I can't express all of there names in any language, I am aware of the wa
there spirit is, yet not in words.

After this I went up to the very center, at first in the center it appeared
light and rainbows emanating from its center sitting on a throne.
The person I could see had no sex and was both sexes in one.
As we talked it became apparent to me that as I believed that was the wa
the way he did look. Yet this was only an image, so I could understand.
So I asked to see what God truly was, it was granted me, for many it wou
amount their spirit would have to take in at one time, this would likely d

God understood on a level, we don't yet think of him at, we believe he ju

The one thing that held people away from God is not so much there sins,
them think they had to go it alone, instead of realizing that only through
we finally be free of the circle of life and death.
I was asked, if I wanted to choose my own reality, as Yeshua had done, y
the game and learn how it worked 1st, this has been detrimental at times
have chosen or asked for things to happen, which they have, in the proce
causalities.
Finally after we finished talking God asked if I wanted to stay, yet I aske
felt I still had things to do.
Many times I have thought this was a daft decision, yet God wouldn't hav
unless he saw fit.

Now for many years, I haven't always believed that this was true, it is no
I have been programmed as such, to double and triple check things, then

The main thing was the mushrooms, I wasn't sure if it was self induced, y

Plus a video, I watched called a brief glimpse of eternity, sent shivers ru

At 24 I was helping in my aunties Christian books shop and began readin
Revelation, it made me cry as it was amazing how it foretold exactly wha

At certain points or books, I would get a headache telling me not to read
time, I turned to open them, again the headache would come back. So I d
later, as instructed to do by the Holy Spirit.

When I was on a Christian camp, I went out to the woods near by to pray

that he give me a sign from the sky to tell me. At that point there was th

I also asked that God speak to the main pastor and ask him to point to th
to be preaching was Yeshua and not the father
That night we went to the service and the pastor started his sermon off,
which Yeshua had come to him and asked that we spoke about the father.
This brought tears to my eyes as it was remarkable that it had happened
sure why he said Yeshua except, I do sort of look like him.

After this camp I was slowly becoming convinced that maybe the entire b
many of the parts written by Paul used well to guide people.
I finally got round to reading the entire bible at 26 years old, when I was
holy spirit.
I kept having visions where I would see Yeshua saying something, and th
said, was directly opposite.
After about 4 months of this, it got to a point where there were so many
other, I wrote it out. I had Paul on one side and Yeshua on the other.
There was almost 20 points and there was still more that I could see yet
For almost 2 years or so now, I have been constantly studying to see how
The more I have looked, the more I have found confirming that Paul is th
While re-reading John it was brought to my attention, how many points he

Many other points have been brought to my attention while reading and m

So confirming what I was originally sent with and came to my consciousn
why I am so strong over this, as I have had precept upon precept all my

Shortly after realizing that Paul was anti-Christ's teachings, it unlocked
it had been when I was child before being deceived by Christian ideology
Then during this time I was studying, I remembered the saying "the more
the further it runs! When you stop it will come back to you".
So I did the same with my search of what God had been asking me to do,
religions, as to understand where there magic of the world comes from.
It then came to me how the commandments ran in line with the dimension
commandment is no image, and 2 dimension is an image on paper. Then t
being to do with time, and that the 4th dimension is time and space. So I
of them. I then realized that the way that numerology worked with in Chin
the I-Ching, Aligned perfectly with this same pattern that I could now see
From what I had seen when I died this now made perfect logical sense, a
between heaven and hell were these same rules.
What Christ had done is described and shown the last 2 commandments t
almost completed the commandments to make a clear picture of the spirit
as well as rules to live by, to ascend through them to spiritual harmony.

Since discovering all this and publishing it online, I still have miracles a
ask for, if from a pure heart. So it is apparent to me that this is indeed s
can see the differences between the Pharisee ideology and that of God's

During the course of my life I have seen many people I recognize, I reme

heaven, and the energy that they contain and where they sit around the t
that there are many peoples, who have been sent yet many of them are u
in their lives without service to God, as they have been indoctrinated by
reality. Many have been put off by the whole idea of religion, as it was e

completely made up, as I had done for many years, until I was shown why
