Summary: A Quick guide to some of the Amazing things within my life, the faith in doing what God asked of us.

Many will ask who I am; what right do I have to go through the bible in the first place? The truth is I have asked my self the same question, again and again, since I was young, old, yet one day I knew I would have to.

Then that's the bit that gets me, who thinks things like that at that age? Why do I think of them things? Why would I feel, I was sent?

So what did I think, at that age?

That Yeshua had said it right; he had never at any time pointed to himself as being wrong as people worshipped Yeshua.

Yeshua I knew as a brother and understood many of his feelings, memories from in heaven and also his flash backs of his life.

I knew what heaven was like and how it felt, and what was required from me, yet not in words, as I do now.

That there will be a great tribulation within my life time, then after that will be unity.

I felt that I had been sent.

Yet as I said before I always question it and almost at times disbelieved that God would let me stop believing, what I came here with in my heart.

So why didn't I stand up earlier, I wasn't sure and especially being brought up in a time of doubt and capitalism.

Plus also the main reason is my auntie, as she believed that we should worship at church.

I knew many commandments inscribed on my heart, I respected my elders and she said it was wrong, as she would get me in front of that big book. I couldn't read it, it sounded so strange, so I left it until I was older. Yet with the knowledge I had to what I originally felt, I would have to do, by going through the bible.

For many years, I had children's copies of the old testament and I would go back to it, I found it the only book, I would keep going back too, yet I wouldn't read it, something was wrong, and I sort of knew, I wouldn't understand it at that time. My auntie helped me in many ways, not that I saw her that much until I was

we moved nearer to where she lived.

You see she is a very strong follower of the bible and has been led by the many different denominations, trying to find the one which is true; she had a shop.

Having felt this way from that age, we have come to many discussions at all occasions not getting very far, without it coming to her getting mad at me. Yet through adversity we learn.

When I was 8, it was September 1986, I remember standing on a show ground wandering, while my parents looked after our stand; I stood in an old meadow running all over buying things and admiring the old castle.

I couldn't help wondering why? What was it all about? What is it all for? As people seemed so distant from each other, yet I thought from what I had heard would be working towards the same here.

When I was 15, it was a beautiful afternoon and I had gone off wandering on a disused train line, near to where I live. There was a beautiful sun set over the ground at all the house and nature dotted in between, and thought how all these people were isolated in their little boxes, away from each other and thought how it would be one big family.

Then I heard this voice, at first it felt like it was my own mind, from the center. Yet it had an authority that was not my own, so I answered back in my head. I sharply, got almost told off, by a quick answer back, "I am talking to you." The voice. It then became apparent that the voice was clear in me, yet not passing from all of nature, almost like everything was one, all birds, wind, and sounds. In one word God, one clear, booming, flowing voice in the center, then with a million voices surrounding it, in clear unison and harmony, I have never heard it.

There was a magnificent cloud behind me, where I could hear the American, Chinese, Tibetans (Zanda) it felt like all the people who had attained oneness with God. It sounded like many waters as it flowed, so perfectly in unison with the center. It then told me:

"Read all the religions, and when you have read all the religions, you will see the magic of the world comes from, when you understand this, build a place. When you understand and from this place, peace will spread. then others will follow. The thing within all of this is that as well as speaking, it was clear to me that as it showed me in pictures, a place where all books would be and many people would come from many miles, to study there and so making knowledge grow in the center."

I asked "how will they know its there?"

The voice replied "Build it and they will come"

It then continued as I walked along the train line along to my home, I was given more attention as God talked, instead of walking along. It got to almost a point where talking in this continues rhyme of information, of how things would happen.

Near the end I asked "why me?" I was told "many are Chosen, few stand." It bothered me, the amount I had been told, so I asked "how will I remember"

"When the time comes you will remember".

That was about it, for a 15 year old I didn't fancy reading all the religion the lads, and so I was accepted.

Odd bits I do, yet there is still a big section that is missing, about after people start to rebuild our communities.

Straight after, when I left where the voice had been talking, as I neared force came not like the 1st in any way more, dangerous, dark and bad.

It tried from the inside of me, to get me to jump off the bridge head first point in me being here, I might as well. Yet I rebuked it in the name of God all my spirit, to go the way I wanted, down the track

This alarmed me at 15years old, as I thought how I can manage something such and became a villain, well sort of. Someone became my friend who I met. Up until 19 years old, I read the Tao Te Ching and other eastern religion and the effort of doing, what I have been asked to do. Yet not reading the bible as I was off, by what I had been taught, by society of Yeshua.

At 19, I had almost lost my self in the whole normal way of English life, Disbelieving all the stuff that had happened earlier as being my imagination right and it was probably the devil, stop!! What am I saying??

So at 19 I went off to live with my dad in Spain, this opened my eyes to the then the usual life, of a 9-5 and buying stuff for happiness.

Then after an annual drumming party that is held in Ibiza, we stayed at the party 3 days.

There I met someone who my spirit recognized, we sat playing drums all day. What had I been doing all this time, I had known many things since birth but they had gone way of track.

It was then, that I asked for forgiveness from God and Yeshua, as he had said it was hard it could be.

That night I got bitten by over 120 mosquitoes (that we could count) they were on my main arteries, it was almost like the bad blood, I had acquired got taken.

After that, I still wasn't completely on track, yet each time I did anything to make me aware, so I wouldn't do them again.

Also from that point, I noticed that when I asked for things, they would be on the street or I would find them, don't get me wrong, I would never steal them.

Once I did try and steal a bottle of water, as I hadn't any money and had no money was so thirsty.

Yet I almost got caught and ended up chucking the water, so they stopped and sat down and gave up and thought how could I be in such a mess, and how to do it instead.

Then with out moving, while I was thinking this, I put my hand down to my bottle of water.

Thing like that happen all the time to me and always have done, I would keep coming and there is too many miracles to mention.

Now when I look back at my life, almost every single thing I have asked for was granted. I had a brown eyed, dark hair, Gemini called Suzy, certain looks and everything she did turn up as I asked, even though it wasn't what I needed at the time. Yet this is what happens when we try and guide our own path rather than trying to choose.

In the year 1999, I was 21 and during a self induced trance state, I saw a book laid out in front of me with many seals on it, almost like locks, yet they were there to stop any from entering that are not true. Yet within me, I had all the keys without trying to find the right one, they could not be opened by one person. So I asked that there be in front of me a channel to pass the energy through some of the enlightened people I knew. Now these parties have a reason, either the full moon or half moon, yet this time the moon was in the cause and what's more it was positioned, so it was in direct alignment, that was the cause. After this experience I had a couple of weeks of weird things happening, things that I was thinking, would be playing in the song in the bar, I was walking past. I would meet people and have answers for questions they had in their lives. Finally I went back to my dad's boat as he had a book on ancient history. Something in my spirit told me to look in there; there were many of the secrets that were things from between now and 20,000 years ago. I felt they had always been hidden, but I blinded myself to much of them by being taught differently about life. One point that still sticks clear in my mind, as it was discovered and shown to the world after, was that the statues on Easter island. They used to be used as light for the island in the Pacific, i.e. Mu, Atlantis. They used to contain what appeared to be a precious stone. Then a fire was stuck under, so it would reflect out to sea. From looking at this book, I decided I need to go to this sacred mountain. I asked my dad if he would take me as it was a nice day. He refused and said he was busy, and then from nowhere a storm came and we were on the mountain. We couldn't get back to land in the dingy, as the storm was too big. I tried to try, the boat next to ours almost smashed into our boat, so we went back to shore in a mess. My dad tried to pull the boat out of danger with a rope, yet each time he was shouting at God and saying I will get you for this when I get up to heaven. In the end as my dad tried to pull it, the wind snapped back at him and he was hurt badly. So I asked, "let me try", he said "how can you, I am a strong man, you are not, let me try". So I just prayed and asked the wind to stop and it stopped, I pulled the boat out and just as I was about to tie it on my dad took over and the wind picked up and we were safe.

Me and my brother went back to shore and then went back to the other side where our friends were. I still had in mind that I need to go to this mountain and see it, yet I didn't know why. When we met our friend it was them who turned to me and without me saying a word a group of us want to go to this mountain. In the end only six out of the group of friends came along, when we got to the mountain and we had to go along a dirt track to get to it. Many years before I had, been a hawk that lives above it and knew where I was going from that.

We made a camp fire and sat round it and told stories of things we had seen. I was currently in a mess.

It was an amazing night, I have never seen so many shooting stars in one night where in perfect alignment with the mountain

I decided to go on a mission up the mountain at first to get wood, then later to climb the mountain.

I had gone with out my shoes, so I stuck to walking on the stones, so I did not go half way up and then got stuck as the path was blocked by bushes.

While I was laying there trying to figure out a path up to the top, through the bushes, I was up looking for me.

One decided to come up to the top with me, I was busy pondering the way that my spirit saying about the white and the black path. I then realize that the path was mainly on white stones and the way that hurt my feet was on the dark path. Did the path lead? I followed it up, and then I heard "wide is the path to adversity and narrow is the path to life".

Then I noticed that the path went off down this narrow route through the bushes and found the path up to the top, all the way along were these white stones that glowed in the light.

When we got to the top we lied down, I have never felt such peace as I did then. I felt contained, almost like being in your mother's womb.

I looked up at the stars and saw that my stars (Orion's belt), as they have been in the right direction in my life, were directly above where I was looking and in the direction of the mountain.

Then I heard a voice saying "you must have one foot on the sea and one foot on the land" what this meant and had not heard it before, yet believed it to be scripture. The same voice in my spirit, had guided me up the mountain with scriptures.

I made my way down the mountain to its point, where the rock is above the point. As I sat there I pondered all that my friend had been saying and all the things that had happened to their lives.

Then from all that I had read about God, all I had known in my spirit from the scriptures could muster, I called out in my spirit and asked, the creator of the sea and the land could see and then some more, "when will we call time"?

At that point there was thunder from every direction, so it hit my ears at the same time. I never heard anything like it.

After I was almost questioned, if you had a son and loved him dearly, would you do anything good of man kind, I said I would, which made me cry at the thought of it. As with this question I saw a glimpse of what infinity meant, and how his love was occurring.

I had with me a pocket copy of the Tao Te Ching and asked if we could use it for the good of the earth.

I remember thinking how beautiful it was as poetry, yet after you understand the world didn't follow these things. It made you bitter, for if we did the things that were said I also asked that if I truly was who I thought I am, when I had been young and naive to religions, as a key to finding the truth. Which later I found out, is in many religions.

I then saw with my friends, a person who hadn't come with us and whose name I didn't know. So I immediately went to investigate, I came and spoke with him and asked him to go to the mountain, he didn't want to, almost like the mountain was guarded in some way. I then asked God if he was bad, immediately a lizard came along and started to crawl on the ground.

then said to take a photo of it, which with in many cultures is counted as the animal.

I then heard ask "if he has any tattoos?" I did and he had on one arm bo other dance with the devil.

I asked why he had them done, he told me he had, had a bad life and how killer in the military and that was there emblem.

This man I hadn't met at the time, yet he lived in the squat with many of We came to quite a few conversations, when we got back to town.

He was trying to teach my friends that you could just steal to get by and them to entertain people and ask for donations.

At one point he turned to me and said "there are many of us and only few Yet I came back with white moves forwards and black back, meaning that future and bad can only work through the past.

We shook hands on it, and straight after I caught my hand that I just sho got a cut across my finger and for 2 days it would not stop bleeding.

I began to get worried and went to seek spiritual help, I went to a friend gave me a stone and prayed. Immediately after leaving the shop where m bleeding.

At 21 I and a group of friends went mushroom picking, I picked loads I w they looked OK and would take them out later when I checked in the mus got into the car, I sat on them and crushed them so they were all mashed So later I just eat the lot, yet I found that I had done something wrong; r time. I told him that something felt funny and it felt like my heart was st just being daft as I looked OK.

He left me and went home, I sat upstairs on my own in deep thought, yet my heart slowing down.

It then just stopped, at first I found my self outside of my body, looking I then in the form of spirit flew around all the places I had known and fa up at the wood near to where I live.

It was strange as I went to the 1st tree of life in the woods, not that I ha of tree it was before, I also knew where all the other trees of life were i My spirit went into the tree of life, in front of it were 2 swords flashing l to do with me, as they seemed to only guard against things that came wit in peace and acceptance, So they let me go in through the tree of life.

As I went through the tree, I realized why I had come to the tree of life, place of refuge, its roots spread deep under the earth. Then through the connected to all trees and nature.

It was symbiotically connected to all of nature, it leaves spread high into them was connected to the weather.

It was almost like this tree could feel what was going on and the tree of work, yet we had lost touch and didn't realize, all is one!

Then as I went through the roots, I came to another place, at that point r my eyes and times where I had not stuck in a 100% effort came back. I s had happened to the person, as I had not made sure I did it right the 1st make mistakes. Even though at the time I had felt I was doing right I rea I had thought, I had done to help, in fact had been my own desires.

This shocked me at first, as I saw all the ramifications of my actions, I f

realized it was. I then came in to a place that appeared to me, as millions had seen this, yet not accepting responsibility and instead blaming God or others. They all stood next to each other, yet no one was listening to each other or trying to stand and blame.

My spirit couldn't take this place, it was horrible as it was so confining, but in fact light when you looked closer, each spirit contained its own colour of light. The colours mixed together, appeared mucky brown.

Then as per usual in my life I began to talk about God and they tried to cover themselves, as many of them seemed dim in comparison to my self.

As they covered me in themselves, something within my spirit called out, from the bottom of my soul, from this point I called out with all my spirit.

Why at the time I shouted this I don't know, as from all the books I have read and people had told me, many would say you should ask one of the prophets. I felt right and so strong, I have never known my spirit to be so strong on earth.

Then from above me a great light came and pulled me up through many levels, as they were still part of the solid levels or the spiritual side of reality.

As I ascended through the levels they got smaller, almost like the shape of a sphere. Finally I was brought to a place that was apart from the 1st place, yet close to it.

The place I came to was pure thought and feelings, it was one big circle, the outside of it was white with hints of amber and warm colours. This place was where I understood that. The center was God, everyone was singing around the center of the circle.

The 1st part of it was love and all that were there had love. I floated past some one and as I did they were interested to meet me and I went around each other. We almost became as one, we understood all the thoughts of each other's spirit had, yet without touching.

Just floating around each other, in almost making love, yet so pure and so clean, there was none of the feelings of love I had down in the lower levels, as I had experienced on earth.

Here everyone knew most things, the things they didn't know they sang pure in words like we do on earth, yet in simple sounds as children and animals. They had the same essences, yet different from each other. All the songs combined were the most beautiful music; I have heard and ever will.

As the waves of song, hit the center they come back with more emotion in their hearts, still in this almost musical expression coming in waves.

Then after floating around this other spirit, who was so bright I came past a degree of time, I spent with the 1st, instead just passing by. Yet still without words of whom and what they are, understanding all feelings and emotions of each other as we passed.

After leaving the first area of unconditional love, I came to a place that was a circle; many spirits recognized me and were quite excited to see. It made me feel like I knew me and are my friends. This place I had come to was pure wisdom and love at the center circle and was channelling all the energy that came from lower levels rather than being disorganized as they came from the lower levels and earth.

As I looked around I saw that as I looked around the center circle, there were many ways each of them acted and corresponded with the center.

Each seemed almost like a different colour or musical note as each had a unique spirit.

This part of heaven was like the lens of an eye, as the different colours of light focused on the center.

It appeared to me that many of the books, I had read and emotions or feelings I wrote them, were these same that I now looked at within heaven, there were Buddha and many others.

I can't express all of these names in any language, I am aware of the way their spirit is, yet not in words.

After this I went up to the very center, at first in the center it appeared light and rainbows emanating from its center sitting on a throne.

The person I could see had no sex and was both sexes in one.

As we talked it became apparent to me that as I believed that was the way he did look. Yet this was only an image, so I could understand.

So I asked to see what God truly was, it was granted me, for many it would amount their spirit would have to take in at one time, this would likely die. What God is, is all wisdom and knowledge in one place, all thought that is on earth and on all the spiritual levels. All is heard by God, each feeling is a pattern, all to one center point, so being the corner stone of the whole. God was like a single spirit was, yet millions of reflections of them all in and over again till infinity.

God understood on a level, we don't yet think of him at, we believe he just a mistake. Yet as I said he sees infinitely, in other words he understands the each and every person's lives, understanding why they do things and why they don't. The one thing that held people away from God is not so much their sins, but they think they had to go it alone, instead of realizing that only through God we finally be free of the circle of life and death.

I was asked, if I wanted to choose my own reality, as Yeshua had done, yet in the game and learn how it worked 1st, this has been detrimental at times. I have chosen or asked for things to happen, which they have, in the process of causalities.

Finally after we finished talking God asked if I wanted to stay, yet I asked to go, I felt I still had things to do.

Many times I have thought this was a daft decision, yet God wouldn't have let me go unless he saw fit.

Now for many years, I haven't always believed that this was true, it is not. I have been programmed as such, to double and triple check things, then go to the 1st place.

The main thing was the mushrooms, I wasn't sure if it was self induced, yet how I could have seen so many things, which are spoken in many religions. Plus a video, I watched called a brief glimpse of eternity, sent shivers run through me almost identical to what I had seen, where a man died from being bitten.

At 24 I was helping in my aunties Christian books shop and began reading Revelation, it made me cry as it was amazing how it foretold exactly what was happening on the mountain 2 years previously with out prior knowledge.

At certain points or books, I would get a headache telling me not to read. At a certain time, I turned to open them, again the headache would come back. So I did not read them later, as instructed to do by the Holy Spirit.

When I was on a Christian camp, I went out to the woods near by to pray

that he give me a sign from the sky to tell me. At that point there was th  
was looking and asking for. That was the only thunder all that day, so it

I also asked that God speak to the main pastor and ask him to point to th  
to be preaching was Yeshua and not the father

That night we went to the service and the pastor started his sermon off,  
which Yeshua had come to him and asked that we spoke about the father.  
This brought tears to my eyes as it was remarkable that it had happened  
sure why he said Yeshua except, I do sort of look like him.

After this camp I was slowly becoming convinced that maybe the entire b  
many of the parts written by Paul used well to guide people.

I finally got round to reading the entire bible at 26 years old, when I was  
holy spirit.

I kept having visions where I would see Yeshua saying something, and th  
said, was directly opposite.

After about 4 months of this, it got to a point where there were so many  
other, I wrote it out. I had Paul on one side and Yeshua on the other.

There was almost 20 points and there was still more that I could see yet

For almost 2 years or so now, I have been constantly studying to see how

The more I have looked, the more I have found confirming that Paul is th

While re-reading John it was brought to my attention, how many points h

private conversations that only a Pharisee would have known.

Many other points have been brought to my attention while reading and m

been fulfilled by the Pharisee both Paul and John

So confirming what I was originally sent with and came to my consciousn

why I am so strong over this, as I have had precept upon precept all my

not what God wants.

Shortly after realizing that Paul was anti-Christ's teachings, it unlocked

it had been when I was child before being deceived by Christian ideology

Then during this time I was studying, I remembered the saying "the more

the further it runs! When you stop it will come back to you".

So I did the same with my search of what God had been asking me to do,

religions, as to understand where there magic of the world comes from.

It then came to me how the commandments ran in line with the dimension

commandment is no image, and 2 dimension is an image on paper. Then t

being to do with time, and that the 4th dimension is time and space. So I

of them. I then realized that the way that numerology worked with in Chi

the I-Ching, Aligned perfectly with this same pattern that I could now see

From what I had seen when I died this now made perfect logical sense, a

between heaven and hell were these same rules.

What Christ had done is described and shown the last 2 commandments t

almost completed the commandments to make a clear picture of the spirit

as well as rules to live by, to ascend through them to spiritual harmony.

Since discovering all this and publishing it online, I still have miracles a

ask for, if from a pure heart. So it is apparent to me that this is indeed s

can see the differences between the Pharisee ideology and that of God's

During the course of my life I have seen many people I recognize, I remember a moment in the past with an image of their past life. Others I remember the heaven, and the energy that they contain and where they sit around the table that there are many peoples, who have been sent yet many of them are unfulfilled in their lives without service to God, as they have been indoctrinated by the world's reality. Many have been put off by the whole idea of religion, as it was established in Jerusalem and Babylon (Roman Empire). So do not even know of Yeshua and believe that the whole thing is completely made up, as I had done for many years, until I was shown why.
