Keywords: Alcohol,Drinking,Bible,Yeshua,Christ,Older,Life,Alive,Dead,Fe

Summary: A Sentence that Christ said has not been looked at or even un
"No man also having drunk old wine straightway desire the new: for he sa

To me the point is quite clear, yet to many thinking Christ said it was OK
logic in this.
Now I could go into great depths of where the Bible says about the right
the nations and how prophets shouldn't drink, yet this we will discuss in
The main point I want to bring up is the effects of alcohol and the fall of

You see if we take Genesis quite literally, what on this planet do we kno
same effects as Adam and Eve had, well alcohol and quite clearly if look
You see a snake eats fruit and is safe to even eat rotten fruit off the flo
also produces Alcohol!

So if a snake eats rotten fruit it is harmless, yet to our self's it drops ou
overall vibration of everyone around us. By disconnecting us with God; h
produces and ego as we fall, we get greed and all sorts of weird emotion
uncontrolled by our self's.

So if we are what we eat, what happen when all is life and we eat someth
along with it.
For me now not drinking for years now, it is like drinking old fish tank wa
or a pile of mouldy rotten potatoes, left sitting for 3 years then eat one.
Old stagnant water is bad for us we know this and will make you feel gro
So I do believe this is what Christ was referring to in this statement, the
contexts, yet on a whole it does make sense in this perspective.
Quote:

Luk 5:39
(39) No man also having drunk old wine straightway desire the new: for

So when we see countless peoples getting drunk, having emotional probl
moments again and again. It is something that is tearing our societies ap
services can tell us, spending all week looking after causalities of alcoh
care home and also almost 60% of the people there are out of alcohol ab
brain cells they are now classed with a mental disease from drinking.

You see you are alive God is alive, fresh fruit direct off the tree is alive
leave a pineapple for a week on the floor and get drunk on this after.

Well if only a week since dying then we re-live a week ago, yet let it pro
stronger drinks and these are left to rot (ferment) for years, not just a s
So when you drink this, you become what you eat, so your consciousness
that and becoming older; as that is what your brain and body feeds off.
So this is what I feel that means, far more then a twisted impression by
something God said is the test of Babylon, to then be acceptable.

You see they will say it means stronger alcohol is better, then the new s
of the Bible and God, plus Yeshua who asked people not to drink until th
though they put "I will" instead of "I ask you". there are also other quite
too hang around with drunkards, and just to give a disciple a cup of wate

So what it really means is the older alcohol is, that people drink, they d
to make things better and to fix their life's. They regress and start looki
is anything's they can fix, to make their future. Well you can't; the prese
be shaped, yet the past is how it is and to be learned from, you can't lea
you are gaining brain cells, then alcohol destroys brain cells.
So when people don't drink in the slightest, they are lot more forward thi
constant turmoil, of going up and down like a storm at sea.
The emotional roller-coaster is formed by the alcohol to begin, it isn't th
in fact the opposite.
You can't gain confidence from acting more confident when drunk, and th
being drunk, you will find in the next morning, you are even less confide
Confidence is an illusion and so carry a stone, call it magic and you will
stone with you, you will have more confidence; so really any thing can be
not needed understand the illusion of confidence and it find you.

So it doesn't help us, and alcohol provides more wars and fighting then a
planet. It makes people get old as you are what you eat, maybe not outw
allot.
Don't you remember as child when a drunken person approached you, gro
can you remember how they didn't feel whole as a person, yet thought th
state.
For me I felt how they had lost apart of their soul, not gained, and an ov
within them gone.
So what do we want to get old for, talk about old things, that never chan
you can go travelling come back and still find the same people in the sa
same things as when you left; no matter how long you leave it, if alcohol
You might have moved forward miles in your own psyche and then find th
the first step they were on when you left.
So though this sort of started on how we find that drinking old wine make
past, we also find that it makes them old, grump, less intelligent and a l
clearly wrong.
The fact alcohol destroys grey matter of the brain is probably one of wor
epidemic as unbeknown to many of us , is how much investment from pow
encouraging alcohol, else why would it even be legal? It is one of the w
in fact more then heroine, as alcohol is accepted, when it is equal in eff
How is the rest of the world ever going to move on, when half of the worl
through the consumption of alcohol.

This is what made the human consciousness fall to begin, and thought co
providing the support for the government's to contain us.
As if people don't look forwards and to a brighter future, yet to a dull pa
happening to them without question.
When alcohol is removed more and more people, start to make plans and
bright future, for all our children.
