When Newton realised, that an apple falling from a tree, produced gravity he control gravity (boy that apple how we had) let gravity take its toll on the which produced time and the apple falls from the tree, due to gravity moving and night an the apple grows. When he was a clever cookie, worked out it could stick a barrel under the tree, when the apples fell in to the barrel, would have a time measurement. The system apple had something went wrong!!! In this he made a new chemical that gave him control over gravity and grav when he drank this magic liquid he too could have control over gravity, n he had first seen, because when he drank his magic liquid. Just as... he to the apple had done. Newton is magical power of gravity to extra gravity produced by extra time and this amazing apple that sits on his head. man drinks old apples and talks about new things, for he looks to the past. Else he looks to the past when he was told to not eat rotten apples as s got drunk and found gravity, also for many of us trapping us in the past, you re-live it each time you drink your magic gravity juice, which gives y backwards in time. In respect of any people in the Bible who agree with dr against them 100%, it is the Soma of this world (brave new world) and a So free your self stop it!
