Industrial Society Destroys Mind and Environment

Dear Group Members,

I want to share my article with you. This is about the link between Mind a
Environmental-Issues. The fast-paced, consumerist lifestyle of Industrial
exponential rise in psychological problems besides destroying the enviro
interlinked. Our Minds cannot be peaceful when attention-spans are down
microseconds and milliseconds. Our Minds cannot be peaceful if we destr

Industrial Society Destroys Mind and Environment.

Subject : In a fast society slow emotions become extinct.
Subject : A thinking mind cannot feel.
Subject : Scientific/ Industrial/ Financial thinking destroys the planet.
Subject : Environment can never be saved as long as cities exist.

Emotion is what we experience during gaps in our thinking.

If there are no gaps there is no emotion.

Today people are thinking all the time and are mistaking thought (words/

When society switches-over from physical work (agriculture) to mental wo

There comes a time when there are almost no gaps.

People become incapable of experiencing/ tolerating gaps.

Emotion ends.

Man becomes machine.
