Plato said: " We don't learn, we remember". WE are souls. We have recor
us. This is how people can do regressions, it is just about remembering v
life.. on the same token we can see the future too, even though it is harc
consciousness in something that we will experience rather than somethin
experienced. Because time is cyclical, I will exist again in the next cycle
expereinces are recorded and because history and geography repeats ide
aware of a particular "scene" I will act accordingly. It is like playing a 4
I play the tune recorded in me.

To probe this, look, what I am writing right now. I would lie to you If I te
for word what I am writing... it just comes naturally, even without me thi
Once I am aware of the task, the needle moves and i play the tune... In t
on accepting 2 things: Time is predestined and repetitive and the fact th
decisions" are based on previous experiences (law of Karma) I will be "p
way... 99% of our choices are not rational... and out of the 1% , 50% of t
wrong... the other 0.5% it was predestined to happen . We cannot control
variable that moves the universe.. it is arrogance to believe that we can
in the drama of life , it will happen... otherwise it will not. We are like a
unique role. when we get attached to this role, we suffer. We need to rer
Souls having a bodily experience.. and expressing our roles.
