You will see many sites across the web popping up over the years claimi
religious tolerance sites....??

Must admit the official religious tolerance site does have a wealth of inf
some religious tolerance in understanding where things are complicated.

Yet point is that if you declare any religion as separate, that is, within i
what you are doing is rather then bridge the gaps you are building walls
even larger then the books them self's, say they are...all coming from on
different if there are differences more or less it is due to mans own intol

For instance here is why I feel to write this, as more and more keep seei
all from the same source and one books.....yet people will not allow this
some label more then anyone else and not follow God; as God is one to b
labels)..so all is one God!
if it isn't and some of this reality around us isn't God, then we have a bi
then?...as all prophets state it should be oneness, yet the religions divi

on purpose.)

Here are a few of the ones that I really struggle with lately, on us all be
books imply on even a quick look it is visible..yet on mans current religi
intolerant...so not the way of God as I know of.....

The Bible and Quran both teach:
1) Not to eat meat and God gave us fruit.
2) Reincarnation occurs and is completely up to God of what happens nex
3) The matrix is a word missing from each that is put as being womb, yet
next to mother and is a different word.
4) That there are 13 months in the year and not 12 (which is ancient Bab
5) That the Bible (will have) has additions is in both and the Bible alone
when the Quran points out the same mistakes, yet is defined as separate
6) .....There are actually loads more and still going through all rel
so noticing over time similarities between them, that are near fits....yet
tolerance sites make a forum with all religious texts separate to begin, t
problems, not solutions....

Don't believe me try going around any site speaking from the Bible, on m

they think you are a Muslim (fight against faith) as that is what their mis
making their site....

Or sites claiming they are there to bridge the gaps and then if you turn a
where the Bible prophesied and showed how fake some parts of it are; th
remove your posts....

Though all you are doing is finally understanding where religious argume

Well here is the biggest point in all of this when the mustard seed, is a t
Upanishads, Dhammapada, Quran and the Bible, then truly they are from
to declare it didn't, is mans choice....

Yet here we are left with the bottom of the barrel and many find it in the
we have the net), yet try their dammed hardest to show where everything

(I might sound wound up..... God is one and is within all of us..... in d
is the worst thing man has ever chosen.)
