Wow, are you decieved or what? You know if we understood absolutly ev
God until we died. But a can asure you of this, we din't evolve from anyt
keys stick!

If we did evolve then God mad a mistake somewhere. God can make or d
makes you think He couln't make you?

YOur body has been figured out by science, we know how it works. Yet, a
still cann't keep it well, or recreate one. Oh, yeah, cloning. Maybe it h
it is stillup to God to provide a soul for the cloned ones.

The chicken or the egg? Well, duh, the chicken. The bible says that God
them to reproduce after their own kind. End of question.

I pray that God will put Himself and His wonderful creation ever before y

And if evolution were true then look at this. God knew that we didn't ha
that our teeth would fall out. So he made wisdom teeth so that we could

If we used to be monkeys and had tails, then at what point did our DNA d
longer important aand how did the parent DNA tell the child-to-be not to
shorter one cause we don't need them so we are gong to start weeding ou
could signal ourDNA like that, then we could all be born in perfect health
these dogs whose tails we cut should be DNA signaling their babies not t
master is gong to cut it anyway!
