go to creationism.org that is a scientific website dedicated to creationism and t
inteligent input.

I beg to differ...DNA does decide everything. color of hair height ect...
programming? Also, DNA determines certain breeds of cats do not have
way.

Yes human souls are different because God breathed life into humans. H
by the way, there are 5 differnt colors of dirt-red brown black white andy
it that according to the type, are all different. There are also 5 different
anyone can trace in there blood. Black, brown red white and yellow. you
DNA testing and they can explain how we all come from the same area of
migrated. They have a DNA traceing map.

Sorry, but the dental thing is not true because I eat junk all the time and
toxic and in 38 years I have never had a cavity. So, God knew what he is

Also, here is a question...which came first -the body or the nervous syst
randon organisims and/or cells created or bodies to work in perfect harm
heart beats and pumps blood throughout our bodies and we think, feel an
are the odds on that? really? Innumerable. some how our bodies work wi
towards one purpose. Tobe human.

yes God made the earth, the animals,the air breathaable the sun, moon a
for Adam. Don't most new parents do the same-house,crib make the atmo
bring stuffed animals home and THEN bring the baby home? Why is that e

No, I will not let people believe they are related to monkeys. That is wha
stand by the obvious. Sometimes people just say that and then later afte
this," Well, I never really thought about it much because that is what the
look into something when you are questioned without being defensive.
