Like to be specific within this idea of the Matrix being reality, need to d

Unfortunately The Matrix film has tainted people's understanding of what

So lets go to the basics first, the Matrix is a mathematical grid for thing

Quantum physics is mathematically equatable, the periodic table is math everywhere in reality is the Fibonacci sequence interwoven into it....The that are formulated, the physics is coded, etc.

Yet are the lifes we live also mathematically equatable, well some things opposite sex, because the curve design uses sacred geometry, and Fibonacci alluring.

Yet what a boring game, if we're all just robots automated within a rigid case, as all beings have freewill within it.

It is sort of like we're all in a massive multiplayer online game, God/CPU us to play within; yet doesn't choose all of our actions within it.

So when you get your head around that....

Then ideas that say we are God/Brahman/CPU are a bit strange, as that is only part of the machine; what if we're really separate from this reality, we've assumed is God/Brahman/CPU, yet is really yourself speaking from trying to guide you through the game.

Now though God/CPU processes everything, and calculates all data; thus prayers to be answered, and reality to be made manifest by the enlightened dictate what happens within reality, just maintains the structure of the e

Like a massive sandbox, if you've ever played an online virtual reality sa similar; as characters in the game will create markets, economy, even la do in this one.

So feel free to debate the whole concepts, the flaws or ideas you think m
