Hi Everyone,

I just wanted to get some information out to you. Did you know that Chlo
skin, eyes, and the respiratory system!
Ammonia can be damaging to the eyes, skin, and respiratory tract!
Air fresheners contain toxins that include Formaldehyde and Phenol!
Dishwashing detergents contain dry chlorine, which is the #1 cause of po
according to poison control!
Furniture polish contains Petroleum Distillates, which can cause skin and
name a few. You can do a smell test on your household cleaners. Quite s
the more the toxins.

Another fact for all you moms that stay at home cleaning day in and day
National Cancer Society, a 15 year study found that stay at home women

Also, children with chronic lung infections, asthma, Cystic Fibrosis, ADH
mom cleans the house? We wouldn't dream of letting our children breath
yet we do it every time we protect them by cleaning the house!

Then there are the side effects these products have on are environment.
earth. We need to get back to basics.

A really cool book I read recently is "Radiant Body, Restful Mind" by Shu
addresses living more simply and safely in all aspects of our life.

I hope you take this information seriously. If you want to learn about a
products for your home and family, contact me at healthyusa@hotmail.com or check out
