I found this gentleman, Mike, to be highly creative and potentially giving wonderfully smooth and creative web as well as intensely smooth video in out his wonderful <http://www.mdfilms.net/>

MESSAGE TO MIKE:

I just ventured into your site and must say that not only does your video but your web site design is cutting edge and clean as well. This coming from Intrawork <http://www.intrawork.com>.

You know, I have 10 original songs now and I am seriously thinking about MP3 and a CD with cover and all. In doing so I am wondering if you might for a song or two of what we have going.

I'll get down to business rather than waste time. While working with high in 2003 an all powerful, all loving supreme being sent me visions; the message Heaven is on Earth. With this established you can only imagine the quest and adventures that have followed.

Creatively many things have come out of the initial findings which included several songs, scripted writings, poetry and a grouping of people whom things.

I think that your talent in producing video could help us immensely. Specifically produce a music video for the song, "A World as One". No need for band rather you would be charged with simply going out and making the best video. Essentially fusing the lyrics, melody and mood setting message best with video.
