Bismilahi Rahmani Rahim

And that was Our proof which we gave Ibrahim against his people. we raised certainly your lord is all-wise all-knowing surah 6:83

Brothers and Sisters have no doubt that your saviour the Mahdi is writing in his hands,

and here is my proof

November 5th 2003 I was in my English class at McGavoch High my English teacher made a video about a book called Mcbath that we were reading she placed me and my friend to make a video together, one of the student was a great young woman called Abby, we went to Abby's house, the next day we were ready to make the film about the book, during the video one of my teammate boy went to Abby's restroom (toilet) and he met Abby's grandmother arrived and she went into her house and into the restroom and directly came to me and Asked me if I used her Toilet and called me a pervert, I have not use your toilet maybe someone else did, Abby said Abdi didn't use someone else

then the grandmother start talking bad to her grandchild asking why she was in her house and the grandchild answer with I asked you yesterday to bring kids with me you and you allowed grandy, but the grandy said yesterday was yesterday, today, and went into her house, called her son, after while, there was a man, a wife, he directly come to me, grabbing me on the neck, and treated me badly in his house he tried so, I didn't want to fight with him because I was in his house, when I try to put me in his house, I was still calm, never change and get out, later they came to me and told me I was a good child, I told them we were depressed, they told that they were suffering depression and they were sorry, I accepted that people were suffering the depression

next day Allah guided me to tell the story to my teacher

and I added teacher this people were suffering depression and they are not happy, the world is suffering

do you know what caused the depression is the war in Iraq and elsewhere, a depressed person who was suffering his own depression

teacher war is not good weither you win or lose, for a proof that today w
