Ok taken from a book a read on a scientific study of reincarnation, some
where not explainable by the author.

There was a man in India, who had a family he loved very much, he died.
of about 8 years old, a young boy travels to come to the family and expla
knows many facts only the father would have known and private secrets o
This was just one of the examples it had many of these where people hav
families.

There was also many hypnotizing session where the patient when under h previous events, with all the facts and there had been detailed worked in which the patient had said under hypnosis. In fact in the study some of t more history then they could find.

The next part in this book that adds a lot of questions is Buddha's as the die and found again as is the Dali Lama. Each time the Buddha dies and around for him in his knew body. Before they will accept it is the same p of test, where the Buddha must identify the items that where theirs out t The book told how the Buddha when tested didn't even question out of th the item in question each time.

Just some questions for now, yet I still have loads to add to this, tell me missed.
