Say what it is you mean in the widest and the best number of different ways. Then describe each one in different words, yet concluding the same definition. One that Ghandi said.. and since I love it so much; I'll improve upon it to have a wider impact. Wider impact is only a result of a better understanding from the people. Understand and feel the emotion and truth, and they will change. Just as

original quote Ghandi, "We are the change we wish to see in the world.

We are the change that we desire. Act accordingly.

The change we hope for is within the people that can realize it needs to be amongst the desired change, which is the people.

Change will not come to one, one must make change. In these times of peace there is room for procrastination.

Let's be the change we wish to see you guys. There's no one to blame in this. We do this.
