My medicine, Raccoon, was shown in a dream last year, and that reminded me of my path. Later I was also shown Crane, to trust that I am able to soar in the sky. Unlike the ancient ways, where the Shaman is few and exalted, the dawn of the new requires All to live the way of the Shaman. It simply means to live according to a conscious and conscientious manner, even though your actions will be judged by a conscious. This is the time to listen to Wisdom within, and discern what is true without.

The rainbow is one of my serendipity symbol, and the postings really struck me about the Rainbow Warriors. I intuitively realised, that the Rainbows are also covered in an opalescent aura. They are gentle warriors, who beckon others by example rather than by force.

Blessings & Peace,
Snow
