Zan...

Attacked! How can you say this when I state myself I was born journeying shaman until my twenties. I was then relieved. Actually, delighted to know I was not making it all up. Sometimes before I met others like myself I worried

Did you listen to it all, read all of it! I only just finished the final draft and it came up on the screen, so no you didn't. At best you were scanning and missing the simplest details. The most basic guides. Nothing specific, no mention of anything that it is more advisable if you do. I realize some do not. I have also seen others. Yet, I did not mention this did I. It has been said now. Sorry, it is true for the exception.

I pray your heart will soften in this direction as we have discussed why I use Shamans assistance at times in the past. Was I attacking your skill level or using wisdom... You took no offense that day.

I am not the master of all things. Yet this is a topic I feel passionate about

I do not feel attacked. Should I? Why?

Love and Gratitude,
suzyq
