Hey I am completely lost. How do you stretch an E-flat? What on earth are we know about sounds tho. In America our government is bombarding our people and creating sickness and disease of all kinds on the masses. All our hospitals there are so many sick people in america. Much of this sickness is from noise we hear, produced by evil people hiding within our various government departments.

Now I know there are healing sounds also. Its just that someone has found a way of bombing my country with them, too make trillions of dollars from the medical world up with this excess money..Thats what I think is going on. Whoever runs the medical industry and pharmaceutical industrys also. Sounds, energy waves, it all means something doesnt it?

Its curious to learn from reading about 400 books on metaphysics, that the etheric plane each plane corresponds with one of the seven octaves on a piano. The corresponding 7 astral planes, are in harmony and the same frequencies of vibration. That means sound is tied to everything concerning humans, seen and unseen. music..."Om"
