If no one has noticed she is in a mess

if you check the 5th commandment it states

Quote:

5: "Honor your father and your mother, as the lord your God commanded long, and that it may go well with you, in the land which the lord your God

Now christ came a long and said we have one father in heaven

so this being the case we have one mother(earth)

Quote:

in the land which the lord your God gives you

Now is it just me or does this refer to the earth if god is one and his peo

so the land is here we live off the earth like a baby in its mother

with out plants we would die it is a symbiosis they create oxygen and giv

plus also trees hold a lot of water explains why sea levels are rising

also all our waste is needed for soil and continued growth of the environm

as we put out nitrates and phoshates in our waste and this is the nutrien

i once read a story when i was kid about someone get bugged by flies in

so they concreated it all and stuck in plastic flowers

yet then when they sat on a sunny day there was no birds and butterflies

so they got out a sledge hammer and smashed it up and went back to nat
birds came back

so if you can plant a tree it will reduce the water rising

I am not 100% yet i believe plant might help produce ozone

so the more we plant the more chance we have of a better future and ev
even pot plants help
