I was going to go in a chat room this morning and I felt why bother, as a So I might as well write something worth while and leave it on here as th So since I was going to join a Buddhist room and explain enlightenment o explain how to get into heaven, I might as well do it in one. So this is what I should have done ages ago, my breakfast that I have no and so my life has felt unassertive lately.

So the guide to the dimensions cross referenced, I will write it as I am w means to me. Also as you read this go back to the beginning once you u8 your self on the others

Ok 1:

No Ego!! Now this is I, this is me, me worry, me concerning my self with What am I? I am something in the universe, how big is the universe? Hug space travelling at 2 billion million miles an hour, in 6 different directio something, lol.

I worry about people and saving them, can I really can anyone? No only o them self s can. And this is the I, this is the Ego, this is the test, the 1s reflection of the truth and in the center of that truth is the unlimited kno attain this when I am only on the 1st level of enlightenment? Give up self trying to hold people as your own and realise all is God and from the beg plan. So if you want to help people let go, trust God all is decided each There is no point God sticking someone o a track they can t run, so don the easy think your track is better or the right one. Huge point to 1 is doing not drink as this dramatically increases your ch forgetting about God in the picture.

Quote:

Be still and know that I am God!

1st seek the kingdom of heaven and all things shall be added to you!

Even now you are only a character in a page, in the book of life, which G

2: Now as you have given up your self and would be happy in the service you are, even a blade of grass or a tree if you could serve God better. So that leads us on to that God has no image and it means no, there is n

describe God as, yes we have tried yet it is all us writing. What does God image!! Yet we chose to ignore this and relate God to our self's oops ba By the way this is the after life and here in one so each level will effect amount of miracles ect and physical control of the universe.

So when you see a tree God painted that yet is not that, when you see th good to you, god painted that, yet God isn't that,; God is far more than th you get my point. So the painter's ideas are a part of the painter's Charac So when you want to see the painter look beyond the concepts of the pai images that the painter uses yet understand the expression, this is what yet as you can imagine it is difficult as which bit of the painting do you Hopefully you see the point God isn't a man, or women, God can be what can create through thought.

Well how do you relate to God then if you have no where to direct your th and highest you can imagine and keep going more as when you do you al become more as God hears each and everything's thoughts and expressio picture.

Let go of all pre-conceived ideas of what God is let your mind be in cons of God and what it refers to when it say in his image in the bible i.e. cor this so after realising you have no ego let your consciousness expand to there is no boundaries the spirit is as big or as small as you let it .i.e. to 1 Ego.

3: I have re-equated this lately as before I saw it don't blaspheme which realised that sound is what is produced and sound isn't contained else w Also that sound need 3 dimensions to be i.e. length depth and width. The So 3 is remember no sound you give for God is worthy of God as where d created them again it is like the pictures, yet this sound. As each and ev made a baby laugh? Who made a dog cry? So let go of any name you hav beautiful expression of your heart to call God let go of the sound you hav words. Use pure emotion; this then applies in life as through your overw you will feel the same, if you fully understand the concept.

4 is time and space remember in each and every day spend time to reflec till the end of the week and have one day to think about God and spend t many I know do and attending church regularly to make up for it. It is no does see all. So learn to meditate full on God using the commandments t be at one in your self not wanting or needing just being still acknowledg your spirit and consciousness is already part of the universe and when y is, free and at one already.

To be continued&..

(Possibly punctuated better if it is hard to read?)
