Been so busy lately with changes to the site ect...purchasing Fruityloops what is not...anda on that fact of music I would like recommend compute the things I have seen anda being a full time surfer and web

Computer music magazine recommends my last months work lol...as I tried to add it..Cubase 4 me was investigating and many other points of very clear industries music systems up-to-date as I just researched my self at the s

Anyway on to the point which is my new track and the way this site inten

We removed the music database as there is in fact no point as an artist t

I personally finding remarkable playing systems with good surround and t do the same..now when adding the music in a system form here it sort of None Mac friendly..

So instead music will just simply get added here as then it is oneness an ect.

Instead please give us feed back on tracks before and after as if anyone forum as a qualified sound engineer, it is then possible to remix ideas a

As time progresses given that I now own Fruityloops

I will organise stuff when people see what I am here for...

Anyways peace b with U and any help with this track is appreciated as at concept of the sax slow...

May remix and need input where and what it wants?
