Tag's are simple really, they are semi explained in the name, they are to label....

So in our case with the Articles of our own, we have gone through the Article list, that we feel may help people find that Article from either Google or

Yet main point being search engines they like TAG's!  
They see them easier, which means in the long run if Search engines do.

So do the public!

So in placing Good Tag words you make your article sell it's self....

So for instance a poem could be like this

Poem,Enlightenment,Disciple,Humble,Servant

Ect.....Following delimiters are valid for multiple tags: [,] [ ] [[]] [;]

You notice no spaces, there is a list next to the Tag's system of way to use them...you can use any of these methods in spacing, if a word doesn't show in Article or shows as two words try linking them with - or any other method

Basically all you are doing with Tag's is helping your Article be defined
