Right as for your question in Hinduism

True Hinduism, as i was watching last night on a Muslim channel, a Doctor said there are differences in beliefs.

He went through sacred texts of many beliefs and proofed that in all it says the same, including Hinduism.

What Hinduism states, different to Muslim is that all is God. through a corner of the universe into creation, muslims state that all belongs to God.

This i have viewed 1st hand, my self in heaven and it is both God is part of the universe, yet also is so much, much more then that.

As for the cow, the cow is sacred as it gives milk and so is precious, not to eat, this contradicts the Hindu texts.

This is why the beliefs argue as the pharisee turned Yeshua into an idiot. I don't know this since birth, it is only now, i can put it into words for the world.

Plus as the site's faq's states faith is a feeling not a belief

There is one true faith

One true God

Oneness is heaven
