Having read, and discussed many religions globally online for years now, which God, yet what is God?

Many of the world's religious texts concur with a central concept of a So everything we exist within.

If we can quantify our whole universe, it is potentially showing we exist computer code; as it is all mathematically concise down to an atomic lev

Because everywhere in nature, we can see the Fibonacci sequence (snail wave, galaxy spiral), we can show there has to be a central source to the

So God is like a Universal Central Processor (CPU), creating reality at a

Then we apply that same theory to the world's religions: Chronos means Chronos organized chaos (Nyx) into Logic.

The Bible ideologies have that the God Most High is the Source of everyt translated into Arabic, becomes 'Ala Ilah'.

Ahura Mazda in Zoroastrianism means the Lord of Wisdom, and is the Sou

Even the Norse religion doesn't stop at Odin as the God; he gained his p reality Mímir - at the Well of Wisdom.

Buddha spoke of the Universal Mind being the cause of reality.

Lao Tzu didn't remove the concept of there being a Source, he just decla argues about their idea being the best.

The problem is every person, even with this wealth of previous wisdom o they will have their own slightly different concept of how they perceive G

Theology is like many routes up a mountain to the one peak; yet people a they could see the bigger picture from the top, they'd see most take the elevator in the middle of the mountain - accessible by using certain plan
