7th after having a reasonable conversation with me the other day for once ever, as I keep saying based on the fact he is ignoring the religious prop knowingly leaving mankind to be wiped out, and "so plans, and thus want

Yesterday we did manage to discuss the different methodologies used, w Grammatical Method, and the Historical Critical Method will never succes religious texts properly, as their not as logical as the method I've always inspirations (which 7th has inaccurately labelled the Wizanda Method).

Fortunately during the conversations, he asked me what my method was o the Critical Structural Method, which is to analyse all the data available most logical way to Critically test the Structuring, and see what the orig

The problem with the Historical Grammatical Method is that they believe when the Bible is meant to contradict its self, as part of a morality exam

The problem with the Historical Critical Method is it only observes the au period; which when dealing with poetic prophetic texts that interlink glob it doesn't actually deal with all the structuring available to us.

So since I got close to explaining what is going on, and 7th refuses to a Wizanda Method for everything, where he believes I just use the Divine I workings, he banned me from using the word Logic, and Illogical. As whe logic, he bases it on knowing logical fallacies, and being able to show lo workings have to add up over all the topic.

Ancient Greek philosophers understood that Chronos created time & orde made out of Logic; which is that we can show God exists from mathematic mathematically equatable. When it comes to solving what things mean, w logical workings that add up, not just that we know how to argue, and ho superior.
