Dude your ideas, imagination, and knowledge of UFO's seem to lead you to conclusions as me... and i have also read about the new technology we have and i've even heard we have downed a couple of them with it... i don't remember it was some type of plasma/electromagnetic something or other, i only saw it where, but it was definitely authentic... i'm pretty good at picking and choosing to make sure i can back it up with credible evidence... that's what led me to believe if the stuff people are saying is even possible... and damn.. it is. Well D... how long are we going to be allowed to try and shoot these things down? years advanced technology than us... not only that if they are the same as the prophets of the old testament... then this means they have some sort of psychic ability that let's them see the future clearly... what allows them to move out of the way of a beam of light. I saw a document highclassified Lt. in the Army, before he died, said that he was at the crash site and wore some type of mind control device on their heads, extremely advanced technology to be driven by a crystal, and he said the only reason he came public was to die and he wanted his grandchildren to know the truth about the universe (he was old.. if they[the government] kill me i've lived long enough already). HMM... convincing i don't know what is. Yet just imagine how primitive we would be to shoot them down with missiles and light beams... i mean C'mon! they are from other dimensions, through wormholes, or at FTL speed. Like i said... would they be intruding on your universe? which is exactly what we are going to do. I'm sure they are having meetings on us right now about what to do with us. I'm sure they are loving to wantd to they could have destroyed us 2000 years ago. Hopefully we grow up and come down instead of trying to shoot them down just to gain their technology. I'm an extremely open minded person.. the more open minded and more i imagine things the more answers you figure out... sometimes you don't even need evidence. I didn't know it was UFO's they were talking about in the old testament... God can be anywhere at anyplace, and so could his angels. Angels are just the messengers... does not mean they are some type of supreme beings.. someday it will be the world of peace, love and hope, to another world :) if we grow up before
