first off, thank you dude.... yes i did contact someone/thing God or alien through peaceful means... but before i did this... i got myself mad, i thought i was wrong in the world, and wondered how this could be going on... and i was using my energies differently... to think about all of these things... and then clear my mind and think ofm nothing... and to just litsen for any voices, and accept the possibility of dsighting.. until i got mad at God ad said alright, i'm not even gunna do anything on all of this... then he revealed himself... just wanted to clear that up... similar :) i think you must show that you are angry... and show that you are expressing emotions, it let's whoever is watching over you know that you are a responsible being, that they can reveal themselves to you, without you trying to make anything happen. Since you put time and effort into listening to the "voices"... 'cause you are putting yourself in jeapordy of being called crazy. I dunno what's next D. I don't know about anything... i'm the most open minded person in this world... or a le... so.
